

MEDIA RELEASE

16th of July 2025

Resilient Lismore’s community Tool Library is now online and easy to use!

Resilient Lismore has launched a new online system for their Tool Library, making it even easier for locals to borrow the tools they need—completely free.

“The Tool Library includes a huge range of useful gear like drills, sanders, lawn mowers, ladders, and much more. It’s designed to help people with home repairs, garden work, clean-ups, and community projects.” Said Celine Massa, project coordinator.

“Since 2022, there have been 2,800 loans through our Tool Library, and we have also delivered more than 20 tool workshops where we have trained over 200 people to build their skills and their confidence while also creating community connections.

“Our Tool Library and workshops are all about giving people the tools, the skills, and the support that they need to do things for themselves or help their neighbours. We know that having access to the Tool Library has helped people whose homes were damaged by the 2022 disaster to do work at home that they couldn’t otherwise afford”

“This new online system makes it quicker and easier for people to find what they need and plan their jobs.”

The updated website means people can now browse the full library of tools collection, check what’s available, and reserve items ahead of time. It also includes simple guides and answers to common questions about how the system works.

Tool hire is free however some items such as the trailer require a refundable cash deposit. Check each item page for details. Visit the new system today and see what’s available at
